

Looking for a fast, inexpensive and easy way to have your parts professionally laser marked?

# LASER MARKING

Want your business to stand out from the crowd? Do you realize the benefit that comes with laser marking your products but are hesitant or unable to invest tens of thousands into your own laser marking machine?

**TECm has the answer to take your business to the next level.**

## No Set-up Fee

While other businesses will charge you \$80 or more, we charge you nothing

## Low Cost Per Piece

Most pieces are less than \$1 and the order minimum is only \$20.

## Limitless Possibilities

We can laser mark part numbers, serialized numbers and yes, even logos.

## Stand Out From the Competition

Laser marking allows you to "make your mark" in business and brings a whole new level of convenience for your customers.

## Fast Turn Around

Most orders are completed same or next day.
